## MARRIED LIFE ON \$80 A MONTH

Mrs. Eva Leonard's Story of Married Life on \$80 a Month—Dainty Guest Room Blotters Are Covered With Chintz—Taffeta and Lace Petticoats—Cranberry Jelly in Molds.

"Well, that poor little Molly Suter is quite sick." Olive sat down, looking very sober and thoughtful. "Gaylord says he is afraid it will be a run of fever."

"Poor little thing. She had all under before." She paused with her hand to her forehead, looking at the situation. "What will they do?"

"It is beyond me," and Olive gloomily. "He is a husband with her now. He came over this morning to telephone the office that she was too sick to leave."

"When was she taken sick?" asked Nell absently, dusting a chair near where she stood.

"They called the doctor about nine o'clock last night. She had a high temperature then. If only they were not in such financial straits they could get a trained nurse from Kansas City, but it is out of the question as things are."

"Mr. Suter asked if we knew of anyone he could get to take care of her, and we could think of no one."

"There was a woman who came and took care of me till Mother Morton could get here when I was so sick over a year ago. They might get her. I'll put on my hat and coat and go over there with you if you want me to," volunteered Nell.

"Good! Come on," Olive rose as she spoke. "Where is Hal?"

"He is in the yard. I'll take him as he is. It is only a little way."

"The boy will disturb her if she is very sick. We must manage to take care of him between us." Nell glanced down at the chubby two-year-old she was leading. "Hal will enjoy a playmate."

"Yes; I was thinking we could relieve the nurse of the care of the boy," replied Olive. "I imagine it will make it easier to get help, too."

After the two women had about exhausted all their powers of persuasion, Mrs. Moore reluctantly consented to go to Mrs. Suter's aid.

"We will take care of little Jack between us and relieve you every day so you can get a little outing," said Olive gratefully.

"Yes, and we can help by bringing in little delicacies for her to eat, and so save your time and strength," added Nell.

The three women sent John off to the office, and proceeded to get affairs in running order. Olive packed a suitcase with Jack's clothes and made Molly comfortable, while Nell helped Mrs. Moore establish herself and start the dinner.

"Now, good-bye, dear," said Olive

as she left the bedroom. "You are not to worry about Jack. I'll take the best of care of him. Molly smiled faintly and reached out a feverish hand to her friend, her eyes dim with tears."

"I'll tell the doctor to bring this suitcase when he comes over, but you had better leave it right by the door so he will see it. Or he will forget it."

Mrs. Moore closed the door behind the ladies with a sigh.

"I did not want to come," she thought, "but that coaxing, wheedling Mrs. Ellison. No one can refuse her anything, and the poor, dear woman, here is in a tight place. There is no discounting that."

She looked in at the bedroom door. Molly was in a doze and was murmuring in her sleep.

"She's in for a run of fever or I miss my guess," she thought as she entered the kitchen.

(To be continued.)

### GUEST ROOM BLOTTERS.

Guest room blotters are covered with stiff chintz covers, the blotter leaves inside being held in place by narrow satin ribbons. The chintz is the same as that used in the hangings of the room. On the outside cover of the blotter a picture, clipped from a magazine or Sunday paper, is pasted, and then the entire cover is shelled. These blotters are very handy for guest room use, and may be renewed cheaply and often enough to keep them fresh and inviting in appearance.

### TAFFETA AND LACE.

Taffeta is a leading fabric for petticoats this season, and some very charming models are shown, all ruffles and lace, says the New York Globe. On such has flounces of point de Paris. Surah silk is also employed in many of these undershirts.

### CRANBERRY JELLY.

Make a very strong isinglass jelly. When cold mix it with a double quantity of cranberry juice, sweeten and boil it up; then strain it into a shape. The sugar must be good loaf or the jelly will not be clear.

### PASTOR'S HOME BURGLARIZED.

Pocatello, Ida., Nov. 29.—Burglars entered the home of the Rev. M. L. Hutton, pastor of the First Congregational church of this city, last night and made away with silver and clothing to the value of about \$50.

The robbery was committed while Mr. Hutton and his family were attending services at the church.

The robbers were interrupted in their work by the unexpected return of Mrs. Hutton, who left the services a little early. The house was in a state of disorder, showing that the robbers were in a hurry to complete their task, and there is evidence that Mrs. Hutton's return caused them to make a hasty retreat. A valuable watch and a considerable amount of money were left untouched in a desk. The entry was made by removing a pane of glass from one of the windows and thus releasing the fastening. The police are hot on the trail of the culprits, but so far they have evaded arrest.

### MRS. ANN MCMAYHILL DIES.

Logan, Nov. 29.—Mrs. Ann R. McMayhill, wife of William McMayhill, a civil war veteran of this city, died here last evening of old age. The funeral services will be held here Wednesday and interment will take place in the Logan cemetery. Mrs. McMayhill was a native of Adams county, Illinois, but she had resided in the state of Iowa most of her life. She came to Logan about ten years ago. She was 69 years of age and leaves one child, Mrs. Harry Stoney of this city.

## PROSPERITY IS IN EVIDENCE

Big Stores in New York Preparing for a Record-breaking Trade.

New York, Nov. 30.—Merchants here say Americans have more money to spend for Christmas this year than in any holiday season since 1906. The big stores are preparing for a record trade and wholesale houses are unable to fill orders in many lines. This is attributed to a rush of buyers from other cities to replenish depleted stocks.

L. S. Pelz, secretary of the Wholesale and Retail Merchants' association, said today that the merchants of New York have never known better times. "The business which has come to America because of the war has put dollars in the pocket of the average man," he said, "but I do not believe this prosperity is dependent upon the war. If the war ended next month, there would still be prosperity here. The wholesale houses of New York have all the business they can attend to. Orders are pouring from the west. The country has money—that is the sole explanation of prosperity."

## GRAY HAIR BECOMES DARK, THICK, GLOSSY

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle for about 50 cents. Everybody uses this old, famous recipe, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.—Advertisement.

## KERN OF INDIANA SENATE LEADER

Washington, Nov. 29.—Democrats of both houses of congress today got their work of organization for the coming session well under way. The senate conference unanimously re-elected Senator John W. Kern of Indiana as chairman and floor leader, and the house ways and means committee began the puzzling task of assigning members to committees.

After choosing the party leader the senators adjourned until Wednesday, when they will hear the report of the special committee on revision of the rules and select the vice chairman of the conference and the nominee for president pro tempore of the senate. Opposition has developed to the reelection of Senator Clarke of Arkansas, as president pro tem, because of his fight against the ship purchase bill at the last session. Thus far no other candidate has appeared, but consideration of the matter was deferred at today's session upon request of several senators.

### To Discuss Closure Rule.

Senator Owen, chairman of the special rules committee, has called a meeting for tomorrow to agree upon the form of closure rule to be submitted to the caucus. The committee is expected to limit each senator to a certain number of debates on a given subject and to provide that a senator must talk to the subject under discussion. This proposal is not expected to meet unanimous favor, as some of the Democrats, while opposed to filibustering, do not believe definite limitation of debate can be accomplished.

The house ways and means committee, with Representative Kitchin in the chair, received a petition from Minority Leader Mann for larger Republican representation on all committees in view of the increased minority membership.

## POTASH MINES TO BE INSPECTED

Salt Lake, Nov. 30.—Charles H. Macdowell of Chicago, vice president of the concern which is developing the potash mines near Marysville, in southern Utah, arrived in Salt Lake last night from Chicago. This morning he will go to Marysville to inspect the mine and the mill, and later will visit the Pacific coast before returning to his office in Chicago.

Mr. Macdowell, who represents the Armour interests in the potash developments, is highly pleased with the success thus far obtained. He would

## How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

J. J. CHENEY & CO., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces. Testimonials and free Price 75 cents per bottle. Sold by all Druggists. Take Hall's Family Pills for constipation.

# Hot Biscuit Booths

Unique among the features of the Electrical Prosperity Show will be the Hot Biscuit Booths, where the making of biscuits from Ogden Pure Food Products will be demonstrated by experts. An electric range will be used for the baking—other electric equipment will also be shown in operation. But better than the demonstration or the display will be the hot biscuits, served with syrup—and absolutely free.

## Electrical Prosperity Week

Has been chosen as the time for this special demonstration by three of Ogden's manufacturing companies. Arrangements have all been finished for this novel feature of the big display in the Dee-Eccles building. During the four days of this show, the cooking experts at the Hot Biscuit Booths will also demonstrate the proper methods of utilizing various food products made by these three companies.

## Accept This Invitation

Come to the Electrical Prosperity Show and enjoy a treat, a lunch of those delicacies that can be produced from

## High Patent Flour

OGDEN MILLING & ELEVATOR CO.

## Mountain Brand Lard

OGDEN PACKING & PROVISION CO.

## Pierce's Table Syrup

UTAH CANNING COMPANY

And other Pure Food Products from these three manufacturing companies.

not venture to predict just how important the industry might come to be, when seen at the Hotel Utah last night, but said that the company at least had produced potash commercially, a thing that had never before been done in this country, and had placed it on the market.

A force of 150 or more men is now at work near Marysville, he said, either in the mine or at the mill. The mill is located a short distance from Marysville and the property is four miles up the mountain from the mill site.

Business generally, Mr. Macdowell finds, is improving all over the country. Armour & Co., he said, found trade improving everywhere. Especially in the south, he said, there were signs of better conditions, and more business was being done there. The cotton crop, he added, was produced cheaper than ever before and would add to the tone of business in the southern states.

"One of the most serious conditions we will have to face in the near future in my opinion, is a shortage of labor," said Mr. Macdowell last night. "In the year 1914, previous to the war, we had about a million immigrants from Europe. In the last year we have only had about 80,000, and in addition to that many foreigners, army reservists, have returned to Europe, thus cutting down the actual number of new people from Europe. With business increasing, I fear we will face a shortage of labor, and the cost of that available may be abnormally high. That is sure to hinder, more or less, business development. Congestion of Freight.

"At the present time, of course, there is a serious congestion of freight traffic near New York City. For a hundred miles this side of the city many railroad lines are packed solid with loaded freight cars, unable to get into New York. These cars are loaded with war munition. Lack of ships to take them out of New York has caused the congestion, and there is no available storage space there, so the goods must stand in freight cars."

Mr. Macdowell has made frequent trips west for many years past in the interests of the Armour company, and declares it has always had a great fascination for him.

### MORE WELLS STRUCK IN GREYBULL FIELD

Greybull, Wyo., Nov. 29.—Two more oil wells have been brought in here during the past week and three more strikes are expected within the next forty-eight hours. Thirty rigs will be in operation before the end of the present week.

Spokane, Wash., capital is becoming conspicuous in the field. Four Spokane concerns now are operating here. The latest is the Monarch oil company. E. E. Massan, representing this company, has purchased a block being there as soon as a rig can be brought in. N. E. Jamison and S. D. Markham, representing another Spokane syndicate, have secured leases in Meade addition and will begin sink-

ing as soon as preliminary arrangements are completed.

F. J. Castell, representing Los Angeles operators, has secured leases on ground in the proven area and is shipping in drilling rigs purchased at Casper.

Greybull people are interested in a deal closed during the past week whereby the Ohio Oil company secured their claim to 160 acres in the new Grass Creek field, paying \$710 an acre, the highest price ever bought by Wyoming oil land.

## Thin People Gained Weight Quickly

By Following This Simple Suggestion.

Thin men and women who would like to increase their weight with 10 or 15 pounds of healthy "stay there" fat should try eating a little Sargol with their meals for a while and note results. Here is a good test worth trying. First weigh yourself and measure yourself. Then take Sargol—one tablet with every meal—for two weeks. Then weigh and measure again. It isn't a question of how you look or feel or what your friends say and think. The scales and the tape measure will tell their own story, and many thin men and women we believe can easily add from five to eight pounds in the first fourteen days by following this simple direction. And best of all, the new flesh stays put.

Sargol does not of itself make fat, but mixing with your food, it aims to turn the fats, sugars and starches of what you have eaten into rich, ripe fat producing nourishment for the tissues and blood—prepare it in an easily assimilated form which the blood can readily accept. Much of this nourishment now passes from your body as waste. But Sargol works to stop the waste and do it quickly and to make the fat producing contents of the very same meals you are eating, now develop into pounds and pounds of healthy flesh between your skin and bones. Sargol is safe, pleasant, efficient and inexpensive. A. I. McIntyre Drug Co. and other leading druggists in this vicinity sell it in large boxes—forty tablets to a package—on a guarantee of weight increase or money back as found in each large box.

## OATMAN FIELD IN ARIZONA IS RICH

Kingman, Ariz., Nov. 29.—After spending five days investigating mining developments in the camps tributary to Kingman, J. K. Turner of Goldfield, Nev., a mining man of na-

tional reputation, departed recently for San Francisco. So impressed was he with his observations that he announced he would soon return here and make a more thorough study of conditions.

Mr. Turner is consulting engineer of the Jumbo Extension company of Goldfield, and to him directly is due the credit for the fame that the mine has attained as one of the greatest producers of the southern Nevada camp. He is also consulting engineer for the Florence Goldfield Mining company, also of Goldfield, Nev., and the Pioneer Consolidated Mines company of Pioneer, Nev., as well as for numerous other companies and big mining capitalists, including James F. Burnes of Colorado Springs, Colo., one of the multi-millionaire owners of the Portland mine at Cripple Creek. Speaking of his observations, Mr. Turner, in part, said:

"I am very much impressed with my observations in the camps of Mohave county, which I have visited during the last few days. I should have liked to have spent a longer time here at this time and made a thorough investigation. However, I will return to Kingman in the near future and make an extended stay in order that I may fully acquaint myself with the various districts. But for the fact that my interests and duties as consulting engineer for several companies in Nevada and elsewhere require that I make my headquarters in Goldfield, I would immediately locate permanently in Kingman, as I regard it as the hub and natural gateway to the many mining camps of Mohave county. This region is the eyecore of all eyes of the mining world, and I consider its future as particularly bright."

"The activity at Oatman is truly astounding as are also the extensive programs of operations outlined by no less than thirty companies, which appear to be well financed and prepared for deep work. The United Eastern is a remarkable property, and I have no doubt that others similar to it will be developed in the district. The outlook for the camp is very promising, as mining men and capitalists of wide fame are taking notice of accomplishments not only in Oatman, but in the various other districts in this section. One of the notable features of the present activity throughout Mohave county is the presence of such a large number of former Goldfield people. Everybody appreciates that Goldfield was brought to the attention of the mining world almost in the twinkling of an eye, solely through the progressive and aggressive methods of the men who have cast their lot with this region, and they can be depended upon to do their share in not only developing the latent treasures, but in making them known to the world. I am certainly glad to see such men here; it augurs well for the section."

In addition to Oatman, I have visited during my visit here the Maynard district and inspected the property of the Arizona Telurium Mining company, which, I found, has a phenomenal showing for the amount of

development work accomplished. The formation there is granite, intruded with porphyry dikes, which is the same formation as at Butte, Mont., and in the Portland mine at Cripple Creek, Colo. A portion of the values is carried in the tellurium form, as petzite and sylvanite. It is my opinion that the development work outlined by the management will expose gold quantities of commercial proportions. I have also visited the Stockton Hill section of the Cerbat range of mountains, but made only superficial inspection of several properties. The conditions prevailing there are pleasing, and I look for encouraging developments with the continuance of operations. I have been commissioned to examine several properties in this section for prospective buyers and upon my return here in a few weeks will make a more complete study of conditions throughout Mohave county."

## ACCIDENT ON ELECTRIC ROAD

Logan, Nov. 29.—There were two accidents on the interurban railway last night. A car ran into a herd of horses between here and Hyde Park and killed two of them. The damage to the car was such that it could not get into town, and the city car was sent out after the passengers.

On he way back to Logan it collided with a rig driven by Fred Beutler of Benson and his horse suffered two broken legs and had to be killed on the spot. Beutler was unhurt. It was cold and Beutler was muffled up so that he did not see or hear the approach of the train.

### TOO LONG.

Bacon—In a costly watch that has been made for exhibition purposes there is a wheel that makes a revolution but once in four years, operating a dial that shows the years, months and days.

Egbert—Never do in South America. They could never wait four years for a revolution down there.

## Clear Your Skin

Eczema, psoriasis, ring worm, pimples, scales and crusts are due to myriad deeply buried germs in the skin. To secure relief and cure these germs must be destroyed and eliminated.

The D. D. D. Prescription, a mild compound in liquid form of oil of wintergreen, thymol and other healing elements, will give instant relief in all cases. Unlike salves, it penetrates to the deeply buried germs, kills and washes them out.

All druggists have D. D. D. A generous trial bottle for 25c. Come in and let us tell you about our money back guarantee offer on a full size bottle. Ask also about D. D. D. Soap. Culley Drug Co.
